Do you know Karim? He's my cousin from Hastings in England. He's ten years old, he's got a little sister and he lives with his family in a nice house. He gets up before seven o'clock every day and he goes to school by bike. His favourite day at school is Tuesday because he likes his Art lessons very much. In his free time he likes playing the guitar and sometimes he goes skateboarding with his friends. He hasn't got any pet at home. And what's his favourite food? He doesn't like hamburgers or chips but his favourite food is pizza.
